Please write a short paragraph why you should be selected to attend:

Have you previously applied or done the Socionext Acceleration Programme	<input type="checkbox"/> Yes	<input type="checkbox"/> NO
---	------------------------------	-----------------------------

If "Yes", Why do you want to do the programme again?

Can you relate a story about your interaction / involvement / participation in your local community

--

Application Process

The Socionext Acceleration Programme is a unique initiative that helps people set up a business in just 5 days. This unique process is hands on and is delivered by professional business consultants.

Due to the programme being sponsored and its unique delivery methods, the programme can only accommodate a certain number of people and thus the total number of attending participants needs to be limited.

The process that Socionext follows is as follows:

- Applicants are informed of the programme through various social and non social platforms.
- Interested applicants are then requested to fill in the above application form.
- Application forms are reviewed and those with strong motivations (the main criteria) are accepted.
- Applicants are then informed (at least 2 weeks prior to workshop) of their status.
- If you are unsuccessful, does not mean you are not eligible, it means that others motivations were stronger.
- Unsuccessful applicants are welcome to re-apply when the next workshop is advertised, and will be prioritised.
